LEWISTON, Maine, Oct. 28, 2019 (GLOBE NEWSWIRE) -- Northeast Bank (the "Bank") (NASDAQ: NBN), a Maine-based full-service financial institution, today reported net income of \$4.8 million, or \$0.52 per diluted common share, for the quarter ended September 30, 2019, compared to net income of \$4.5 million, or \$0.49 per diluted common share, for the quarter ended September 30, 2018.

The Board of Directors declared a cash dividend of \$0.01 per share, payable on November 22, 2019, to shareholders of record as of November 8, 2019.

"We started fiscal 2020 with a solid first quarter," said Richard Wayne, Chief Executive Officer. "For the quarter, we earned \$0.52 per diluted common share, a return on equity of 12.2%, a return on assets of 1.7%, and a net interest margin of 5.7%. Our Loan Acquisition and Servicing Group produced \$69.2 million of loans, including originations of \$40.6 million and purchases with an investment of \$28.6 million during the quarter. Additionally, we began to realize interest expense savings due to both the redemption of the Trust Preferred Securities and a reduction of deposits held in cash on the balance sheet at a negative spread."

As of September 30, 2019, total assets were \$1.1 billion, a decrease of \$30.8 million, or 2.7%, from total assets of \$1.2 billion as of June 30, 2019. The principal components of the changes in the balance sheet follow:

(1) The total return on purchased loans represents scheduled accretion, accelerated accretion, gains on asset sales, gains on real estate owned and other noninterest income recorded during the period divided by the average invested balance, which includes purchased loans held for sale, on an annualized basis. The total return on purchased loans does not include the effect of purchased loan charge-offs or recoveries during the period. Total return on purchased loans is considered a non-GAAP financial measure. See reconciliation in below table entitled "Total Return on Purchased Loans."

2. Deposits decreased by \$34.4 million, or 3.7%, from June 30, 2019, attributable primarily to decreases in time deposits of \$29.7 million, or 5.9%, and money market accounts of \$5.9 million, or 2.2%, due to the continued intentional run-off of excess deposits.

3. Shareholders' equity increased by \$4.5 million, or 2.9%, from June 30, 2019, primarily due to net income of \$4.8 million, offset by an increase in accumulated other comprehensive loss of \$298 thousand.

Net income increased by \$242 thousand to \$4.8 million for the quarter ended September 30, 2019, compared to net income of \$4.5 million for the quarter ended September 30, 2018.

1. Net interest and dividend income before provision for loan losses increased by \$1.4 million to \$15.7 million for the quarter ended September 30, 2019, compared to \$14.4 million for the quarter ended September 30, 2018. The increase was primarily due to higher transactional income in the purchased portfolio, and higher average balances in the LASG portfolio and yields in the loan portfolio, as well as a decrease in interest expense on subordinated debt due to lower average balances resulting from the redemption of Trust Preferred Securities in May 2019. These changes were partially offset by higher funding costs.

The following table summarizes interest income and related yields recognized on the loan portfolios:

The total return does not include the effect of purchased loan charge-offs or recoveries in the quarter. Total return is considered a non-GAAP financial measure.

2. Provision (credit) for loan losses decreased by \$668 thousand for the quarter ended September 30, 2019, compared to the quarter ended September 30, 2018, primarily due to the decrease in loan balances over the current quarter, as compared to an increase in loan balances in the quarter ended September 30, 2018.

3. Noninterest income decreased by \$378 thousand for the quarter ended September 30, 2019, compared to the quarter ended September 30, 2018, principally due to the following:

- A decrease in gain on sale of SBA loans of \$599 thousand, due to lower volume of SBA loans sold in the quarter due to lower originations in recent quarters; partially offset by,
- An increase in bank-owned life insurance income of \$131 thousand, due to a gain from death benefit proceeds recognized in the current quarter; and
- An increase in net unrealized gain on equity securities of \$80 thousand.

4. Noninterest expense increased by \$999 thousand for the quarter ended September 30, 2019 compared to the quarter ended September 30, 2018, primarily due to the following:

- An increase in salaries and employee benefits of \$878 thousand, primarily due to increases in stock-based compensation, regular compensation, and incentive compensation;
- An increase in data processing fees of \$383 thousand, primarily due to increased IT outsourcing costs and the reclassification of IT professional costs from professional fees and occupancy and equipment expense; and
- An increase in loan acquisition and collection expenses of \$172 thousand, largely driven by increased loan and collection expenses incurred on loan workouts in the LASG portfolios; partially offset by,
- A decrease in occupancy and equipment expense of \$229 thousand, primarily due to a decrease in computer equipment repairs and maintenance expense;
- A decrease in professional fees of \$142 thousand, due to the reclassification of IT professional costs to data processing fees; and
- A decrease in FDIC insurance premium of \$99 thousand, due to the Small Bank Assessment Credit received in the guarter.

5. Income tax expense increased by \$427 thousand to \$1.9 million, or an effective tax rate of 28.7%, for the quarter ended September 30, 2019, compared to \$1.5 million, or an effective tax rate of 24.8%, for the quarter ended September 30, 2018. The increase in effective tax rate was primarily due to the update of state tax apportionment rates.

As of September 30, 2019, nonperforming assets totaled \$16.0 million, or 1.43% of total assets, as compared to \$16.7 million, or 1.45% of total assets, as of June 30, 2019. The decrease was primarily due to the payoff of a nonperforming Community Bank loan of \$1.1 million during the current quarter.

As of September 30, 2019, past due loans totaled \$14.0 million, or 1.50% of total loans, as compared to past due loans totaling \$14.6 million, or 1.50% of total loans as of June 30, 2019.

As of September 30, 2019, the Bank's Tier 1 leverage capital ratio was 14.1%, compared to 12.9% at June 30, 2019, and the Total capital ratio was 19.1% at September 30, 2019, as compared to 18.0% at June 30, 2019. Capital ratios were affected by earnings and lower assets in the quarter.
