Northeast Bancorp Announces 1st Quarter Earnings and Quarterly Dividend

Lewiston, MAINE (October 22, 2007) - Northeast Bancorp (NASDAQ: NBN), the parent company of Northeast Bank, reported earnings for the quarter ended September 30, 2007 of \$430,565, or \$0.18 per diluted share, as compared to earnings for the same period last year of \$454,667, or \$0.18 per diluted share. Earnings reported for this quarter remained relatively steady in comparison to the prior year period resulting from lower net interest margins and an increase in noninterest expenses, partially offset by an increase in noninterest income and a lower provision for loan losses. The increase in noninterest income and expenses was primarily due to the five previously announced insurance agency acquisitions completed since November 2006.

"We are pleased with the results in the first fiscal quarter as we continued to boost the lines of business that are independent of the rate environment specifically in the investment and insurance divisions where we are experiencing healthy growth," said Jim Delamater, President and CEO of Northeast Bancorp.

Noninterest income levels increased to \$1,989,374 for the quarter ended September 30, 2007 as compared to \$1,462,428 for the same period in 2006, an increase of 36% with insurance and investment revenues increasing by 102% and 7%, respectively. And, while the Company experienced a net decrease in loans, residential real estate originations and secondary market sales increased resulting in a 60% increase in gain on loan sales compared to last year.

Delamater explains, "We opted to continue to book loans only when prudent, in terms of credit quality and pricing to maintain the integrity of our credit portfolio. We focused on leveraging our network of national lenders which proved invaluable by allowing us to offer competitive mortgage and commercial programs without compromising the balance sheet. This strategy has shown signs of success as evidenced by the increase in gain on loan sales these past two quarters."

This quarter also saw an increase in activity in the Company's insurance subsidiary, Northeast Bank Insurance Group, Inc. Acquiring the Lewiston-based Hartford Agency was one of the largest agency acquisitions to date and was the Company's fifth insurance agency acquisition in less than a year. As a result of these acquisitions, insurance offices now number twelve and with this latest acquisition insurance commissions are projected to increase by an additional \$700,000 over the next year.

The Company also announced this quarter that it had transferred the listing of its common stock from the American Stock Exchange to The NASDAQ Stock Market LLC[®]; a move that it believes will benefit shareholders by enhancing the Company's exposure and liquidity and, at the same time provide improved pricing and faster execution.

Finally, the Board of Directors declared a dividend of \$0.09 per share payable on November 23, 2007 to shareholders of record as of the close of business on November 2, 2007. As of September 30, 2007, Northeast Bancorp had total assets of approximately \$574 million. Northeast Bancorp common shares trade on the NASDAQ with approximately 2.4 million shares outstanding and, as of September 30, 2007, had a book value of \$17.14 per share, an increase from \$16.56 at the end of the same period last year.

Delamater says, "We feel that our strategy of focusing on full diversification of our revenue streams while protecting the integrity of the balance sheet, will serve our shareholders well in the long run. Our franchise value rests in our ability to deliver multiple products and services to each and every household we serve and to price those relationships competitively across all business lines; a practice that we believe gives Northeast an edge in the marketplace."
