Northeast Bancorp Reports Third Quarter Results, Declares Dividend

Lewiston, MAINE (May 5, 2011) -- Northeast Bancorp ("Northeast" or the "Company") (NASDAQ: NBN), a Maine-based full-service financial services company and parent of Northeast Bank (www.northeastbank.com), today reported net income of \$156,000 or \$0.02 per common share for the quarter ended March 31, 2011. For the 93-day period ended March 31, 2011, the Company earned \$11.9 million or \$3.33 per common share, results that included a \$15.2 million bargain purchase gain and \$3.2 million of transaction costs related to the merger of Northeast and FHB Formation LLC ("FHB"), which was consummated on December 29, 2010, and contributed approximately \$16.2 million of new capital to the Company.

The Board of Directors has declared a cash dividend of \$0.09 per share, payable on May 31, 2011 to shareholders of record as of May 17, 2011.

"Over the past three months, we've invested in positioning Northeast for future growth by substantially growing core deposits in our markets, while reducing loans outstanding and short-term borrowed funds," said Richard Wayne, President and Chief Executive Officer of Northeast Bancorp. "Building upon Northeast's solid community banking franchise, these investments will enable us to develop a Loan Acquisition and Servicing Group and an Online Deposit Program, both of which will create jobs and contribute to our success in the months ahead."

Total assets as of March 31, 2011 were \$607.4 million, a decrease of approximately 2.4%, or \$15.2 million, compared to total assets of \$622.6 million as of June 30, 2010. The principal components of the change in the balance sheet over that 9-month period were as follows:

- 1. A \$69.3 million, or 17.7%, reduction in loans outstanding, approximately half of which is attributable to loan sales, principally from the Company's indirect consumer loan portfolio. The remainder of the reduction is the result of net amortization and pay-offs of residential and commercial loans and a \$5.9 million decrease in loans held for sale.
- 2. A \$32.9 million, or 71.4%, reduction in short-term borrowed funds;
- 3. A \$17.2 million, or 4.5%, net increase in deposits, of which \$21.0 million occurred in the current quarter;
- 4. A \$52.4 million, or 28.4%, increase in cash and securities, the net result of changes in loans and funding sources, and the infusion of new capital in conjunction with the merger.

As a result of the merger with FHB, coupled with the reduction in balance sheet size, the Company's capital ratios have increased: the tier 1 leverage ratio increased to 10.15% compared to 8.4% at June 30, 2010 and the total risk-based capital ratio increased to 18.5% from 14.1% at June 30, 2010.

Earnings for the quarter ended March 31, 2011 included the effect of a number of non-recurring items, as follows:

- 1. A \$296,000 positive adjustment to the bargain purchase gain recorded in connection with the accounting for the merger, resulting from final valuations for the Company's identifiable intangible assets for its insurance division, its fixed assets and its Series A preferred stock and related warrants:
- 2. In accordance with the merger agreement, \$450,000 of compensation expense, representing retention payments owed to certain Community Bank division employees;
- 3. A net loss on the sale of loans (principally indirect consumer loans) of \$179,000; and
- 4. Merger-related expenses of \$132,000.

Non-performing loans (exclusive of the fair value adjustment associated with acquisition accounting) declined 6.1% over the fiscal year to \$9.3 million at March 31, 2011 from \$9.8 million at March 31, 2010. The quarterly provision for loan losses declined to \$49,000 in the current quarter from \$628,000 for the quarter ended March 31, 2010, reflecting both the reduction in loan balances outstanding and the fair value adjustments recorded in conjunction with the merger transaction.
